

Adam Lambert, ROSES (ft. Nile Rodgers)

you're like a knife
cuz your looks could kill
hold my breathe every time we kiss
are you feeling it
like I, like I feel it
you left hat on the window still
you're coming back yeah you always will
am I crazy babe
if I say that I crave it

we talk the talk
we're skin to skin
but u just walk away

and all that I got was roses
don't mean a thing without emotions
baby just do it right
Focus
Cuz I just needed your love
tonight /3x

Catch a flick maybe we could chill
next to me, but you're still not here
when I touch you baby
my name - will you say it?
between the sheets we ain't pillow talking
is it love to are we just fucking?
tell me baby:
you can't keep me waiting

we talk the talk
we're skin to skin
but u just walk away

and all that I got was roses
don't mean a thing without emotions
baby just do it right
Focus
Cuz I just needed your love
tonight /3x
