

# Adept, An Ode To Norah Barnes

Where is the light you speak of  
The comfort within your words  
Did it all just pass you by unaware of the consequences  
Come on and taste the fire  
The heat will wash upon you  
You burned away the future  
I'll burn away the past  
Fall into the hands of our saviour  
To hide it all  
But my voice will be the last you hear  
The child most die  
Will you forgive me father for sins that I have done  
Will you believe my father when blood is all around  
Come on and taste the fire! The heat will wash upon you  
Inject the barrel baby  
I'll paint you oh so red  
Now can you lie  
While suffocating  
Can this moment rewind  
My hand is on your neck  
Im taking back what is mine  
A different shade of blue brings out the best in you  
Close your eyes and make believe  
that this will be the last time that you feel anything  
Honestly you know that you will not be missed by anyone at all  
And now the child most die  
This will not be forgotten  
A leap of faith turns into hopelessness  
This is the last time  
that I put my trust into your fragile hands  
Smile for the camera  
Lets make this moment last a lifetime  
The murder
