

# Adept, Sound The Alarm

hold tight, miss cheater! you forgot  
to wipe the scent of your lover from your chest  
i guess i never believed you had it in you.  
burn the charade.  
ignore your own fire  
as the words from your lips  
ignores all the questions.  
i know what you're up to,  
you ignorant slut.  
you never tasted so shallow.  
you have death on you lips,  
cunt!  
i always trusted every word you said,  
you gave me hope for the future  
so how could i swallow every single spit  
of syllables from her tainted mouth?  
when all her words were fucking bollocks!  
here's to you and taking the easy way out!  
we raise our glass this is a toast to all unfaithful ones.  
with every inch of all our hearts still beating we will sing -  
goodbye my beautiful. goodbye my beautiful.  
there's no one who will stand right beside you  
when all comes to how you're treating your loved ones  
you're slipping away.  
can you feel how you're fading?  
important to none, you're dust in the wind  
i put me trust in how the way she smile  
it gave me strength for the future.  
but waves are crashing in and we are drowning by the minute.  
do you have a hand to hold on to?  
for i have mine.  
you're fucking dead to me!  
and as a heart need it's beating surely yours will stop  
i know i have said it before but mark my words  
if shutting you up will be the last thing i ever do,  
i will wrap the silence around your throat  
and leave you breathless.  
i will take every word from a lonely harlots mouth,  
so pick your words wisely  
for they will be your last, they will all be your fucking last.  
the wind settles in, the clouds are getting closer  
sound the alarm we are the storm  
we raise our glass this is a toast to all unfaithful ones.  
with every inch of all our hearts still beating we will sing -  
goodbye my beautiful. goodbye my beautiful.  
all her words were fucking bollocks!
