

# Adhesive, A Job For Real Men

Somewhere inside your empty head  
you think you're working-class  
but you corrupt the whole idea  
with your "white aryan pride";  
Solidarity to you,  
the word is just a curse  
An illusion in your world  
where only the strong survive  
Everything is alright,  
you may have your "white aryan war";  
Everything is alright,  
but you will be the first ones to go!  
A job for real men a job for real saints  
a world for real men a world for real saints (?)  
Everything is alright,  
you may have your "white aryan war";  
Everything is alright,  
but you will be the first ones to go!  
A job for real men a job for real saints...
