Admiral Freebee, Baby's Chest

This is where I want to be This is where I like it best Up here asleep on my baby's chest

This is where I hope to stay This is where I might end my quest Up here asleep on my baby's chest

I've been North I've been South I've been bait in the fish's mouth

If we put it to a test She might end up best Have I finally found some rest

And if it comes to an end I can say I had a friend And that makes me feel blessed

Up here asleep Up here asleep On my On my Baby's chest
