

# Admiral Freebee, Living For The Weekend

Marcha, Marcha  
If your lucky  
Then you will kill karaoke  
And self-destruction  
Is your best friend

And now you're living  
For the weekend  
And now you're living  
For the weekend

Marcha, Marcha  
It's kind of tricky  
To stay away from you home and family  
And self-destruction  
Is you best friend

And now your living  
For the weekend  
And now your living  
For the weekend

Friday evening is you best friend  
Now you're living for the weekend  
And the nighttime is the right time  
To feel like a crashing bore  
But frankly Mister Shankly  
I can't stand it anymore  
I can't stand it anymore

All this living  
For the weekend  
All this living  
For the weekend
