

# Adult., Scare Up The Birds

Shoulder blade stitched  
Itch, itch, itch  
Sinking in quick, so soon -so sick  
A whole new twist, breakin' your wrists  
It all seems to come back to this  
Nape of your neck  
Next next next  
Gonna drag it away, if you stay  
Keeps getting better, since no one's left  
It all seems to come down to this

Watch out, watch out,  
'Cause we're gonna take yours, gonna take yours  
Gonna scare up the birds, like a house on fire

Shouldn't believe, things you read  
Tell you what, what you don't need  
Gonna make you twitch  
Itch, itch, itch  
It all seems to come back to this  
Makeshift guest, took the rest  
Here's some courtesy, to please those needs  
Better look out, or you'll be  
Next, next next

Put the scream out  
Out, out, out  
It's coming my way, it's coming half way  
/all the way/my way
