

Aemen, Time

If you're drowning in your life
The're swallowing youre time
There's something on your mind

Time when time is on your side
I'm bored wasting my time
I know you fake your pride

You, you always make me try
To swallow all my pride
It doesn't make it easier
Time when time is on youre side
There's something on your mind
It doesn't make it clearer

When your down
You're feeling down and out
It hurts the way you shout
It doesn't make it easier

Time when time is on your side
I live the way I like
You know it's my pride

It's so hard and complicated yeah!
Try to take your time and make it real!
