

Aereogramme, Zionist Timing

And they forgot
To come around
The saviours of
The underground

I am alright
I am alright without you here

So take us on
We'll take you out
I see your wars
And live with them

I am alright
I am alright without you here

And they forgot
The common ground
Shit, I forgot
There isn't one

I am alright
I am alright without you here

The end I, the end I know
The end I, the end I know
The end I, the end I know
The end I, the end I know
The end I, end I know
End I, end I know
