Please, I've just got to talk to you please, well get your head out of the loo please, we're a long long way from home please, you turn a young man's face to stone

sick as a dog, what's your story sick as a dog, a cat got your tongue sick as a dog, you'll be sorry sick as a dog, 'cause you really ain't that young

please, you were much to my surprise please, you're a lady in disguise please, you're the only friend I got please, you'd be the last to see me rot

sick as a dog, what's your story sick as a dog, a cat got your tongue sick as a dog, you'll be sorry sick as a dog, 'cause you really ain't that young

please, it's a shame you're so refined please, she was the last thing on my mind please, don't be late to take it light please, you're gonna bay into the night

take it light (4 x's) say goodnight
