

# AFI, Death Of Seasons

Of late, it's harder just to go outside  
To leave this deadspace with hatred, so alive  
Writhing with sickness, thrown into banality, I decay  
Killed by the weakness, but forced to return, turn it off

I watch the stars as they fall from the sky  
I held a fallen star and it wept for me, dying  
I feel the fallen stars encircle me now, as they cry

Out there so quickly grows malignant tribes  
Posthuman extinction excels unrecognized  
Feeling surrounded, so bored with mortality, I decay  
All of this hatred is fucking real, turn it on... yeah

I watch the stars as they fall from the sky  
I held a fallen star and it wept for me, dying  
I feel the fallen stars encircle me now, as they cry

It won't be all right despite what they say  
Just watch the stars tonight as they, as they disappear, disintegrate  
And I disintegrate 'cause this hate is fucking real  
And I hope to shade the world as stars go out and I disintegrate

(It won't be all right  
Despite what they say  
Just look to the sky  
As stars go out...)
