

AFI, Wester

I can feel you waitin' for me
When the sun retreats to the hills and I
Below the blanket of a burnin' sky
Wrap myself within

Embraced by dead leaves
As the rain leaves trails of black down my face
And I creep through the twilight to that hidden place
Beyond the lonely I'll meet you

Tonight in the whispers when no one's around
Nothing can stop us now
Tonight in the whispers where we won't be found
Nothing can stop us now

I can feel you dreamin' of me
And the time when our steps are retraced
And I creep through the twilight to that hidden place
Beyond the lonely I'll meet you

Tonight in the whispers when no one's around
Nothing can stop us now
Tonight in the whispers where we won't be found
Nothing can stop us now
Tonight in the whispers when no one's around
Nothing can stop us now
Tonight in the whispers where we won't be found
Nothing can stop us

I can feel you dreamin' of me
I can feel you dreamin'
I can feel you dreamin' of me
Beneath a dream
Beneath a dream

I can feel you dreamin' of me
I can feel you dreamin'
I can feel you dreamin' of me
Lost in a dream
Lost in a dream

Tonight, in the whispers when no one's around
Nothing can stop us now
Tonight in the whispers where we won't be found
Nothing can stop us now
Tonight, in the whispers when no one's around
Nothing can stop us now
Tonight in the whispers where we won't be found
Nothing can stop us
