

# Afro Celt Sound System, When You're Falling

Everyday, you crawl into the night  
A fallen angel, with your wings set alight  
When you hit the ground  
Everything turns to blue  
I can't get through the smoke  
That's surrounding you

Cause when you're falling  
I can't tell which way is down  
And when you're screaming  
Somehow I don't hear a sound  
And when you're seeing things  
Then your feet don't touch the ground  
Cause when you're falling  
I can't tell which way is down

I can see through the clouds  
I can walk right through the walls  
Hang me off the ceiling  
But I can't take the fall  
Should have crossed the river  
But I may get swept away  
Out there on the water  
You can still see me wave

Cause when you're falling  
I can't tell which way is down  
When you're falling  
I can't tell which way is down  
I keep seeing all those things  
My feet don't touch the ground

Cause when you're falling  
I can't tell which way is down  
And when you're screaming  
Somehow I don't hear a sound  
And when you're seeing things  
Then your feet don't touch the ground  
Cause when you're falling  
I can't tell which way is down
