

Against All Authority, Keep Trying

I offer little resistance, it's a pitiful existence
Your industry is polluting me
And my mind and I can barely find the time to read the signs of
Things to come, that's what they want
You know that's what they want
Another song won't change a thing
A revolution I could sing
That never changed any fucking thing

Your contempt and disregard for human rights outrage us all
(I keep tryin', keep tryin, that's all I can do)
You've made a mockery of justice with your systems and your laws
(I keep tryin', keep tryin, that's all I can do)

I offer little resistance, it's a pitiful existence
Your industry is polluting me
And my mind and I can barely find the time to read the signs of
Things to come, that's what they want
You know that's what they want
Another song won't change a thing
A revolution I could sing
That never changed any fucking thing

Your contempt and disregard for human rights outrage us all
(I keep tryin', keep tryin, that's all I can do)
You've made a mockery of justice with your systems and your laws
(I keep tryin', keep tryin, that's all I can do)

I'll keep on tryin'
(And I'll keep on tryin')
And I'll keep on tryin'
(And I'll keep on tryin')
And I'll keep on tryin'
(And I'll keep on tryin')
And I'll keep on tryin'
