

Against All Authority, That Way

Here we go again good citizens
Avert your eyes
As the innocent collide
Run and hide as the world sits and watches, hypnotized
Another Belgrade sunset leaving town
Another refugee Macedonia bound
And the bombs still fall tearing the city down
And I want to beat you all black and blue
Cause your not like me
And I ain't nothing like you
And I wanna keep it that way
Facism gaining ground
An effective cleansing
The borders are closing down
The unwanted masses litter the bloodstained ground
And I don't really want to know and I don't care
I've got my own problems and they're over here not there
A good american remains totally unaware
And I want to beat you all black and blue
Cause your not like me
And I ain't nothing like you
And I wanna keep it that way
So give us your tired your poor and your weak
Cause we break ground for a Wal-mart there next week
And I wanna keep it that way
