

Agathocles, Autumness

autumn seems to fucking stay
even the sun can't make it go away
leafs keep falling in my head
is this my final race with death?
everywhere I feel the rain
what more is there to gain?
all I see seems so black
where did I choose the wrong track?
autumn seems to fucking stay
even the sun can't make it go away
leafs keep falling in my head
is this my final race with death?
everywhere I feel the rain
what more is there to gain?
all I see seems so black
where did I choose the wrong track?
autumn seems to fucking stay
even the sun can't make it go away
leafs keep falling in my head
is this my final race with death?
