

# Agathocles, Autumnness

autumn seems to fucking stay  
even the sun can't make it go away  
leafs keep falling in my head  
is this my final race with death?  
everywhere I feel the rain  
what more is there to gain?  
all I see seems so black  
where did I choose the wrong track?  
autumn seems to fucking stay  
even the sun can't make it go away  
leafs keep falling in my head  
is this my final race with death?  
everywhere I feel the rain  
what more is there to gain?  
all I see seems so black  
where did I choose the wrong track?  
autumn seems to fucking stay  
even the sun can't make it go away  
leafs keep falling in my head  
is this my final race with death?
