Stay
I know you've been around, I don't mind,
You know I've been down, for such for a long time,
We both wanna care
Lonely hearts searching for someone there
We could have, should have
All the love we've waited to share.

Stay, I want you to stay, Isn't it time we stopped running away? Oh stay, I want you to stay, Isn't it time we stopped running away?

You know I need you And I know that you need me too, Come close and look in my eyes There's a light shining for you

Stay, I want you to stay, Isn't it time we stopped running away? Oh stay, I want you to stay, Isn't it time we stopped running away?

Make up your mind, decide, If we are making love tonight Tell me yes tonight I might Open the door it's gonna be alright. Make up you mind, decide, Open the door it's gonna be alright now.

Stay, I want you to stay, Isn't it time we stopped running away? Oh stay, I want you to stay, I want you to stay, Isn't it time we stopped running away? Oh stay, please stay, I want you to stay I need you, isn't it time we stopped running away...
