

# Agnetha F, Take Good Care Of Your Children

Agnetha Faltskog

Miscellaneous

Take Good Care Of Your Children

Make your life worth living for

Make it into something good.

Take good care of your children,

Mothers and fathers

Show them that you love them

Take good care of your children,

Sisters and brothers

We all need a little loving.

Make your life worth living for

Make it into something good

It's all here in our own hands

So we better think positive.

Take good care of your children,

Mothers and fathers

Show them that you love them

Take good care of your children,

Sisters and brothers

We all need a little loving.

Take your time and do it right

Take it as a natural thing,

The future's in the ones we love

So we better start to give.

Take good care of your children,

Mothers and fathers

Show them that you love them

Take good care of your children,

Sisters and brothers

We all need a little loving.

Look at the kids,

Look at the smile,

Stop what you're doing

And listen to me for a while.

Take good care of your children,

Mothers and fathers

Show them that you love them

Take good care of your children,

Sisters and brothers

We all need a little loving.

Take good care of your children,

Take good care of your children,

Take good care of your children...
