

Agnostic Front, Public Assistance

You spend your life on welfare lines
Or looking for handouts
Why don't you go find a job
You birth more kids to up your checks
So you can buy more drugs
Cash in food stamps and get drunk

[Chorus:]

Uncle Sam takes half my pay
So you can live for free
I got a family and bills to pay
No one hands money to me
You can go to school for nothing
Got that government grant
Get money in advance
When you're sick from shooting up
Medicaid pays full portion
When little Maria gets knocked up
She gets a free abortion

[Chorus]

How come it's minorities who cry
Things are too tough
On TV with their gold chains
Claim they don't have enough
I say make them clean the sewers
Don't take no resistance
If they don't like it go to hell
And cut their public assistance
