## Agoraphobic Nosebleed, White On White Crime

A Wal-Mart shopping spree begins a tri-state killing spree Some Wall Street metalhead with a tribal armband tattoo Has just lost his mind Lost his fucking mind In a white man's world Pointless, cold and cruel We start our day enslaved and end our day depraved No more sick white guy shit No more in white guy mode No more gore or sketchy Asian porn No more That's why when I go I'm taking whitey with me As many as I can splatter before the clock runs out See you in hell, you fucks All covered in blood Buddha laughing atop a pile of human skulls
