

# Agression, Body Count

You who are fighting the endless war  
Told by generals to kill some more  
Wake up in the morning, march over the hill  
Whatever's in your way, you've got orders to kill  
Got to get that body count  
Remember kids and chickens count  
Get that body count  
The platoon got an order to attack a village  
After you're through, you can loot and pillage  
Rape all the women, murder the men  
Fuck all the sheep, butcher the hens  
Napalmed a village, hiking into sea  
If anyone survived that clamity  
Mutilated bodies, blown in two  
Count both halves and be glad it's not you
