

Agression, Money Machine

It's all part of the money machine, the money machine
It's all part of the capitalist scheme, the money machine
Makes you forget you're a human being
And I call it the money machine

So you can . . .

Go to school, study real hard, get your college degree

It's the American Dream, set up for you and me

To keep you from being free

Work from 9 to 5 sometimes overtime, just to pay your bills

The American Dream set up for you and me

By the jerks on Capitol Hill

Then one day, when you're sixty-five

Ain't got no reason to stay alive

Just sit at home waiting for your check

Personally I'd rather be hanging by the neck

So you can . . .

Go to school, study real hard, get your college degree

It's the American Dream, set up for you and me

To keep you from being free

Work from 9 to 5 sometimes overtime, just to pay your bills

The American Dream set up for you and me

By the jerks on Capitol Hill
