Miscellaneous

We're A Miracle

Here we are, safe at last

We can breath a sigh, seems the storm has passed

Through it all, no one knew

That all the tears in heaven, would bring me back to you

No one, I know

Imagined we would make it,

But it only matters that we both believed

Chorus:

You and me, we're a miracle.

Meant to be, and nothing can change it

Mountains move and oceans part

When they are standing in our way

You and me, we're a miracle,

Angels stand watching over us,

And heaven shines upon us, everyday.

Every time, I felt near defeat

You were there for me, oh, on my side completely

You gave me strength, you set me free

It's just because of you that I'm all that I can be,

When I'm with you

The world is ours to reach for

Together there is nothing we can't do..

Chorus

The chance was so unlikely

That we would ever be

Two stars among the heavens

Destiny brought you to me

Chorus

You and me, we're a miracle.

You and me, we're a miracle.
