

Aicha Magija, I Stay Here

I was looking for your love for a long time
I've been sending message in my mind
Every single day I prayed for a success
It wasn't easy but I now I'm doubtless

I'm afraid of the words like forever
But I don't want to lose you ever
My whole world around is giving me a test
How much strength do I have
I'll fight without the rest

Loneliness
One on my best friends
But is over
I'm sure that
I'm better as a part of what
We create together

And I'll stay here
When I'll dry my tears
I on my way
My dreams are in my hands
I open doors
My heart is torn
But I know it's my place
Which I want to experience
Which I want to taste
Which I want to taste
