

Air, Easy Going Woman

Don't let the routine kill our life
Do you still want to be by my side
Remember the time we were both right
Like on the photos that you hide

Alright, alright, alright, alright
Just be an easy going woman
Alright
Easy going woman

I tried so hard to please you
That i forgot my own happiness - happiness
Don't play that game like you used to do
Do you believe what you say - what you say

Alright, alright, alright, alright
Just be an easy going woman
Alright
Easy going woman

I still believe that people can change
Please let me know if you want me to
How many years do we have to wait
For understanding each other - each other

Alright, alright, alright, alright
Just be an easy going woman
Alright
Easy going woman

Alright, alright, alright, alright
Just be an easy going woman
Alright
Easy going woman
