Air - Life Will Never Be The Same Again

=====

LSD, Ecstasy, HIV, MTV,  
Blow your mind or set it free,  
Just don't come and bother me.  
Styrofoam, over-grown, no ozone, ansaphone.  
Nothing stays the same for long,  
When the future comes,  
I'll be gone.

Chorus:

Life will never be the same again.  
How come no one's having fun?  
Spent too long in the sun?  
Every kid has got a gun,  
Democracy anyone?  
Pupil shoots his teacher dead,  
Saw it on TV he said,  
Intentions are never pure,  
All we ever know for sure is...

Repeat chorus.

No one knows what to do.  
Don't make things the way they used to,  
(Thank god),  
If we can fly, if we can dream,  
If we can believe in ourselves,  
And get up off our knees then...  
Repeat chorus.
