

# Air Supply, Come to me

Come to me, that's all that i remember  
Won't you come to me, before i fade away  
Oh, if you come to me and wrap me in your splendour  
Come to me and let the music play  
Here we are, how did we come so far  
Just tell me how you are, i need to know  
Night has come to see the senses run  
And every single one, we all must show  
And when you feel the flood upon the waters edge  
And take the leap from bitter sweet  
Do you believe, do you believe  
Do you still believe  
Come to me, that's all that i remember  
Won't you come to me, before i fade away  
Oh, if you come to me and wrap me in your splendour  
Come to me and let the music play  
In the sea of those eyes, in the fall of the rise  
There is no compromise  
Come to me, that's all that i remember  
Won't you come to me, before i fade away  
Oh, if you come to me and wrap me in your splendour  
Come to me and let the music play
