

# Air Supply, Heart And Soul

Air Supply  
Hearts In Motion  
Heart And Soul  
(Graham Russell)

Just loving you has left the world behind  
I wish I knew how love could be so blind  
Now all these things I never can let go  
Can't let go

I'd give you my heart and soul (I'd give you my heart and soul)  
If that's what it takes to prove myself to you

I understand my life has lost control  
What would I do without your love to hold  
Nobody knows how much I've come alive  
All that I have to give, I give to you from deep inside

I'd give you my heart and soul (I'd give you my heart and soul)  
If that's what it takes to prove myself to you  
I'd give you my heart and soul (I'd give you my heart and soul)  
To hold you now and let your love come through

And all these nights I sat alone waiting for someone  
And here you are, my very own, waiting for so long  
I want to give you more than you have known before
