

# Airbourne, Girls In Black

In the smoke and the red  
Workin' the late night sweat  
You're the one to go to  
When I wanna forget  
Like hangin' off the moon  
I don't wanna come down  
Yeah, you get me so high  
It's hell on the ground

Just one little glass  
Makes the night go fast  
You can have what you want  
If you pay the girl cash

I said girls  
Girls in black  
I said girls  
Girls in black

You're the hot bright neon  
In the cold dark night  
When I'm feelin' down  
You make me feel so right  
Yeah your bait comes free  
But your hooks cut deep  
You make the bad boys smile  
And the good boys weep

Yeah just one little glass  
Makes the night go fast  
You can have what you want  
If you pay the girl cash

I said girls  
Girls in black  
I said girls  
Girls in black  
I said girls  
Girls in black  
I said girls  
Girls in black

Yeah just one little glass  
Makes the night go fast  
You can have what you want  
If you pay the girl cash

I said girls  
Girls in black  
I said girls  
Girls in black

I said girls  
Girls in black  
I said girls  
Girls in black oh yeah
