

Ajattara, Musta Aurinko

Steet mustan auringon
Vaarnat yll syntisten laakson
Vuoresta vallat vkevt
Nyt kivet syttyy tuleen

Hetkeksi varjot katoaa
Tuhka tytt tuulen tiet
Rajalla kahden maailman
Kohtaat rajalla kahden maailman

Nouse luontoni lovesta (TRAD)

Haon alta haltijani
Synteni syvst maasta
Nosta tuulet tuntiessas

Rays of The Black Sun
Spikes above the Valley of Sinners
From mountain the powers see
Now stones are firing up.

For a moment shadows disappear
And with ash fills the ways of wind
On the edge of two worlds
You'll meet on the edge of two worlds

Rise my nature from notch
Out of the snag of my master
Call up my sin out of the ground
When you feel blowing of winds.
