

# Ak'Sent, Kylie

Kylie give me  
Kylie give me

Baby, you're the one that melt my heart  
I swear I'm not lying  
Maybe tonight I'm gonna try my luck  
I can see that you want me  
I'm dreaming about you every night  
Every night

Kylie give me just a chance  
Let's go out and dance  
We can get into the groove  
I can watch you move  
Later you can sing to me  
Like a shining star  
But I rather do you on the backseat of my car  
Kylie give me just a chance  
Let's go out and dance  
We can get into the groove  
I can watch you move  
Later you can sing to me  
Like a shining star  
But I rather do you on the backseat of my car

Baby, take a minute check me out  
I sit in the frontrow  
Baby I'm the coolest guy in the crowd  
I'm sure you have seen me  
I'm dreaming about you every night  
every night

Kylie give me just a chance  
Let's go out and dance  
We can get into the groove  
I can watch you move  
Later you can sing to me  
Like a shining star  
But I rather do you on the backseat of my car [x2]

You drive me crazy  
You slowly drive me crazy  
Think about you baby  
Can't get you out of my mind  
I should be lucky  
I should be so lucky  
I should be lucky to sleep with you tonight
