

Al Green, Call Me (Come Back Home)

Call me call me call me
What a beautiful time we had together
Now it's gettin' late and we must leave each other
Just remember the time we had
And how right I tried to be
It's all in a day's work

Call me
Losing your love, acting foolishly
Go on and take your time 'cause you're only losing me
Love is a long ways from here
Tell you it's all in the way you feel
If your love is real

Come to me
Call me call me call me come back home
The best thing I can do is give back your love
Let you go away feelin' free as a dove
If you find you're a long ways from home
And somebody's doing you wrong
Just call on me baby
And come back home

Call me call me call me
Come back home
