Al Green, Call Me (Come Back Home)

Call me call me call me What a beautiful time we had together Now it's gettin' late and we must leave each other Just remember the time we had And how right I tried to be It's all in a day's work

Call me Losing your love, acting foolishly Go on and take your time 'cause you're only losing me Love is a long ways from here Tell you it's all in the way you feel If your love is real

Come to me Call me call me call me come back home The best thing I can do is give back your love Let you go away feelin' free as a dove If you find you're a long ways from home And somebody's doing you wrong Just call on me baby And come back home

Call me call me call me Come back home
