

# Al Jarreau, All

All of my love  
No one's ever held me like you hold me  
No one's ever touched me in this way  
But I'm not runnin' anymore  
Never felt this way before  
All of my love, I will give to you  
All of my dreams will be comin' true  
In the heat of a tangled kiss  
Say you will and I promise you this  
All of my love, I will give to you  
All that I ask is you love me too  
Take a look, I'm never far behind  
Turn around and gimme, gimme, gimme a sign  
I will put my feelings into one place  
Center my emotions on your face  
I could spend a lifetime sharin' night time  
'Cause when you're lyin' close to me  
Somethin' tells me that you need  
So, be my lover, be my friend  
Say this love will never end  
Want no other in my life  
Our forever starts tonight  
All of my love, oh yes  
So, be my lover, be my friend  
Say this love will never end  
Want no other in my life  
Our forever starts tonight  
All of my love, oh yes
