

Al Jarreau, Fallin'

Nitakungodea Milele

Nitakungodea Milele

These are the words I say when I want you near to me

From that place deep in my heart you will see

I am never far away when you turn to every place

When you reach out for my love I'll be there , yeaah

I will be here for you, baby

I will be here for you when you're fallin'

I will be here for you, baby let me love you

When the world's too hard to bear and you need a helping hand

I'll be there, the one to help you understand

If you wander far away Zambia or Monterey

I'll be there the one to wash your tears away ay - ay - ay

I will be here for you, baby

I will be here for you when you're fallin'

I will be here for you, baby let me love you

I will be here for you, baby let me love you

Nitakungodea Milele

Nitakungodea Milele

I will be here for you, baby

I will be here for you when you're fallin'

I will be here for you, baby let me love you
