

# Al Jarreau, Last Night

I thought about you last night  
About you, you, you, you, you, you  
Thought about you, you, you, you, you  
About you, you, you, you  
Thought about you, you, you, you  
It's like they used to say  
You're never gonna survive  
Unless you're just a little crazy  
Jump right in the game of love  
You start believin' in that someone  
You can really trust  
Last night, I thought about you  
(And the miracle of things that you do)  
Last night, I thought about you  
(And everyday your ways, I'll thank you)  
You're just the one for me  
Can I believe you'll never leave?  
Take care, my heart and soul  
Never left to take but full control  
Last night, I thought about you  
(And the miracle of things that you do)  
Last night, I thought about you  
(And everyday your ways, I'll thank you)  
Last night, I thought about you, only you, only you  
(And the miracle of things that you do)  
Last night, last night I thought about you  
(And everyday your ways, I'll thank you)  
You, you brighten my life so many times  
And believe me I'm so satisfied  
I know I'm sure  
I found what I was lookin' for  
Last night, I thought about you  
(And the miracle of things that you do)  
Last night, I thought about you  
(And everyday your ways, I'll thank you)  
Last night, last night  
(And everyday your ways, I'll thank you)  
I thought about you, I thought about you  
Only you, you, you, you  
I thought about you, I thought about you  
Only you, you, you, you  
I thought about you, I thought about you  
Only you, you, you, you  
I thought about you, I thought about you  
Only you, you, you, you
