

# Al Jarreau, (Round, Round, Round) Blue Rondo A

Round, round, round a melody  
Round, round, round a harmony  
Round, round, round a melody  
Harmony, melody steadily  
Round, round, round a melody  
Round, round, round a memory  
Round, round, round a melody  
Memory, melody, merrily  
There's a melody I used to play  
Counterpoint every yesterday  
Swiftly up and down I hasten and  
Chasten my fingers and heart to play  
Round, round, round a melody  
Round, round, round a memory  
Round, round, round a melody  
Memory, harmony steadily  
Round, round, round a melody  
Round, round, round a mystery  
Round, round, round a melody  
Mystery, mirror of history  
Taking over all my reveries  
Hearing passions in the melodies  
Play it up and down so wearily  
Stumbling, fumbling, tumbling  
Round, round, round a melody  
Round, round, round a harmony  
Round, round, round a melody  
Harmony, melody, memory  
Round, round town I follow you  
Round, round town I'm calling you  
Round, round town I hasten to do  
All the chasing you want me to  
Open up an opportunity  
For I know that you will be  
Truly happy and content with me  
Measure me, treasure me, pleasure me

Open up an opportunity  
Open up an offer. You will be  
Truly happy and content with me  
Measure me, treasure me, pleasure me  
Round, round, round a melody  
Round, round, round a you and me  
Round, round, round a melody  
You and me, melody and harmony  
Round, round, round a melody  
Round, round, round a harmony  
Round, round, round a melody  
Harmony, mystery, you and me  
Don't you see  
That we were meant to be  
One and the same  
Melody, married to harmony  
One and the same  
Change the score  
We will be ever more  
One and the same  
Melody, married to harmony  
One and the same  
Here it comes, our symphony  
Measure by measure  
A melody and harmony  
You and me in harmony  
You and me so happy

We're making it  
Shaking the blues ain't bothering me  
Here it comes, our symphony  
Measure by measure  
A pleasure  
A melody and harmony  
You and me in harmony  
You and me so happy  
We found a new rondo  
To end the blue rondo today
