

# Alabama, You've Got The Touch

Lyin' beside you watching you sleepin'  
After you've loved me so tenderly  
I'm searchin' for some way to tell you  
How good it felt when I held you  
There's so many ways you get to me.

'Cause you've got the touch  
It turns me on and on  
You light the fire in me  
That keeps burning strong  
The longer I'm with you  
The deeper and deeper in love I fall  
You've got the moves  
You move me so much  
You've got the touch.

As you wake up you pull me closer  
And whisper good morning warm in my ear  
Nobody could do that like you do  
You make it so easy to love you  
And I know I will for a million years.

'Cause you've got the touch  
You turns me on and on  
You light the fire in me  
That keeps growing strong  
The longer I'm with you  
The deeper and deeper in love I fall  
You've got the moves  
That move me so much  
You've got the touch.

Nobody can touch me like you do  
You make it so ease to love you  
And I know I will a million years.

'Cause you've got the touch  
You turns me on and on  
You light the fire in me  
That keeps growing strong...  
The longer I'm with you  
The deeper and deeper in love I fall  
You've got the moves  
That move me so much  
You've got the touch

You've got the moves  
That move so much  
You've got the touch
