Alain Clark, Fell in love

Well I've been to many places I spent most of my days travelling round I took a lot of chances I had romances all over town It was almost my religion you don't fall in love you just kiss and say goodbye I have left many missing me but to say I didn?t care would be a lie Chorus:

I fell in love every time

I fell in love weak heart of mine

Love has brought me trouble I had a lot of rubble on the way One girl wants to play the part that the night before I blindly gave away I really care about you babe I promise I won?t ever let you down Came along another girl a different love and the circle went around Chorus x2:

I tried to be so careful with what I said
My heart was never helpful towards my head
Well I've been to many places I spent most of my days just getting high
I took a lot of chances I had many romances on the sly
Chorus x2:
