

Alain Clark, Head over heels

How can I sleep when I'm being troubled by butterflies
Every night they're here to remind me
of your sweet eyes

All of my dreams and all of my wishes
are about to come true
Life is too good and you are the reason
I'm so in love with you
Head over heels

Yeah you make me feel so high tonight
Head over heels

Baby your love makes me feel alive
How can I sleep when I'm going crazy
And I can't unwind
And how can I think when I am about to
lose my mind

All of my dreams, all of my wishes
are about to come true
Life is too good and you are the reason
I'm so in love with you
Head over heels

Yeah you make me feel so high tonight
Head over heels

Baby your love makes me feel so right
Head over heels

No I never felt so light and free
You know how it feels
Cause you told me you're in love with me
Every minute and every second of the day
I'm thinking about you

Please make it never go away
I'm thinking about you baby

Please make it never go away
Head over heels

Head over heels

Yeah you make me feel so high tonight
Head over heels

Baby your love makes me feel so right
Head over heels

No I've never felt so light and free
You know how it feels

Cause you told me you're in love with me
