

# Alan Jackson, I Wish I Could Back Up

I wish I could back up and start all over  
Cause now I'd know better the best way to love her  
The words I would tell her the time I would give her  
I wish I could back up and start all over

[CHORUS:]

Time takes you places you never knew you'd be goin'  
It softens the edges of memories you're towin'  
It changes the reasons

You wanted to hold her

I wish I could back up and start all over

I wish I could back up and start all over

I'd make the first time feel like forever

Not to be younger may be just to be smarter

I wish I could back up and start all over

Time takes you places you never knew you'd be goin'

It softens the edges of memories you're towin'

It changes the reasons

You wanted to hold her

I wish I could back up and start all over

I wish I could back up and start all over

Days I would take back nights I'd wanna make longer

Moments I'd never just throw over my shoulder

I wish I could back up and start all over

[BRIDGE]

But it's never too late to wanna do better

Love's never easy, changes just like the weather

Some days it's raining some are sunny and blue

There's never perfect but there's faithful and true

Time takes you places you never knew you'd be goin'

It softens the edges of memories you're towin'

It changes the reasons

You wanted to hold her

I wish I could back up and start all over

I wish I could back up and start all over
