Alan Walker, Different world (feat. Sofia Carson, I

all we know left untold beaten by a broken dream nothing like what it used to be (used to be)

we've been chasing our demons down an empty road been watching our castle turning into dust escaping our shadows just to end up here once more

and we both know

this is not the world we had in mind but we got time

we are stuck on answers we can't find but we got time and we even though we might lost tonight the skyline reminds us of a different time

this is not the world we had in mind but we got time

broken smile tired eyes i can feel your longing heart

call my name howling from a far

we've been fighting our demons just to stay at loat been building our castle just to watch it fall been running forever just to end up here once more

and now we know

this is not the world we had in mind but we got time

we are stuck on answers we can't find but we got time and we even though we might lost tonight the skyline reminds us of a different time

this is not the world we had in mind but we got time

take me back back to the mountain side under the northern lights chasing the stars

take me back back to the mountain side when we were full of live back to the start

and we both know that

this is not the world we had in mind but we got time

we are stuck on answers we can't find but we got time and we even though we might lost tonight the skyline reminds us of a different time

this is not the world we had in mind but we got time
