

Alan Walker, Unbreakable (ft. Sia)

Hello sweet breath
I know you will be ... of me
like a money given ecstasy
I'm droning in an endlessly

Hello old friend
It's a misery there's no end
so I'm doing everything I can
to make .. love again

I wish that I did not know
where are our broken love was gone
I wish the my heart was made at stone

what if I was wrong then
I should love you would love you longer
I would made you far
you wouldn't teared apart

I wish I had diamond heard
I would give all my lobe
that was unbreakable

Goodbye for so long
and this love is rather wrong
Am I'm give it up where I belong
ever stations play our song

goodbye my love
you're everything like ..
you'll be prism in a ... dark
if I only ...

I wish that I did not know
where are our broken love was gone
I wish the my heart was made at stone

what if I was wrong then
I should love you would love you longer
I would made you far
you wouldn't teared apart

I wish I had diamond heard
I would give all my lobe
that was unbreakable
