## Alanis Morissette, Plastic

You got a plastic name and a plastic heart You can play the game or you'll never start I'm talkin' to you You got a plastic house and a plastic fence Gotta look around or you'll lose your friends Am I gettin' through?

You got a plastic girl in a plastic bed And she's in your house made of gingerbread And you're in there too Got a plastic smile on a plastic face But it's underneath that you can't erase But what can you do-do-do?

## [CHORUS:]

Say Love-it's not that hard after all (tell me what I want, what I wanna hear) When everybody does Say Love-it's gonna tear down the walls (tell me what I want, what I wanna hear) if everybody loves

You live in a plastic dream through a plastic card But reality you don't disregard You know that it's true You got a plastic goal in a plastic life Gotta search your soul gotta make it right And here's what you do-do-do

## [CHORUS]

Wake up in the morin'
Some are not sleepin' tight
A matter you've been ignorin'
Why can't you just say it?
Will not wait forever
Can't you see I'm right
I want you to endeavor
To tell me again and again!

## [CHORUS]
