

Alannah Myles, What Am I Gonna Do With You?

Everything happens for a reason
All our rivers run to the sea
Every last emotion has its season
Who knows which one brought you to me?
You struck me like a match
And I had to burn
You found a deeper part of me
What am I gonna do about the way that I feel?
How do I shake the weight of everything that I have been?
It's so hard to fall after all that's fallen through
What am I gonna do with you?
The whole world's hanging on this heartbeat
And the angle of your smile
I can only hold back for so long
Lemme know you for a while
Well, love is like a flood
And there ain't no end in sight
Coming from a deeper part of me
So what am I gonna do about the way that I feel?
How do I shake the weight of everything that I have been?
It's so hard to fall after all that's fallen through
What am I gonna do with you?
Oh, love is like a flood
And there ain't no end in sight
Coming from a deeper part of me
So what am I gonna do about the way that I feel?
How do I shake the weight of everything that I have been?
It's so hard to fall after all that's fallen through
What am I gonna do with you?
What am I gonna do with you?
