

Alcazar, Stay The Night

I can feel your force right across the floor
Every look I take make me want you more
Now We're all alone and the time is right
So don't even try telling me goodbye
So why do you need to go
When we've just begun?
We got time
Come inside, come inside!
Stay the night
Won't you stay the night?
I can be your lover
Hold on tight
Stay the night
If you stay the night
I can be your guide to paradise
Everybody's looking for the pot of gold
Trouble us to find it and we
Still don't know
I was never one to let the chances slip
With a boy like you at my fingertips
So why do you wanna go
When we're jus getting hot?
We got time
Come inside, come inside!
Stay the night
Won't you stay the night?
I can be your lover
Hold on tight
Stay the night
If you stay the night
I can be your guide to paradise
Stay the night
Won't you stay the night?
I can be your lover
Hold on tight
Stay the night
If you stay the night
I can be your guide to paradise
But baby it's cold outside
So just make up your mind
Baby, this is once in a lifetime
(Stay the night)
(Won't you stay the night?)
(I can be your lover, lover)
(Stay the night)
(If you stay the night...)
Stay the night
Won't you stay the night?
I can be your lover
Hold on tight
Stay the night
If you stay the night
I can be your guide to paradise
Stay the night
Won't you stay the night?
I can be your lover
Hold on tight
Stay the night
If you stay the night
I can be your guide to paradise
Baby, what a shame, not a care in sight
