

Aleah, Vapour

Rushing through torn in two
Then it gets me Where am I
My
Beloved you have left me
Now how will I stay Alive
All and All I
Believe
In my Providence and my Being
But I opened up my wound
Now my
Force depends on You
Silent Kisses on my neck
Through the Veils
You have Come
Burning up my last defence
As We Merge into One
In the Fire of
Your Eyes
Shining Vapour I Become
Hold me closer as I Rise
We Dissolve into
One
I Hear your Voice - I hear You Call me
Through the Ether - Through
my storm
There is nothing left to hold me
All I fall - Into my
Soul
Gracefully I fall
With no Promise of where Im caught
Wondrous
Mother, be my Guide
In my Truth and my Life
Silent Kisses on my neck
Through the Veils
You have Come
Burning up my last defence
As We Merge into One
In the Fire of
Your Eyes
Shining Vapour I Become
Hold me closer as I Rise
We Dissolve into
One
Bridge.
Life is yours through my eyes
Hope is not who I Am
A
million forms it takes, your disguise
Let me not be fooled again
Not again
Oh no, Oh no, Oh no!
Silent Kisses on my neck
Through the Veils
You have Come
Burning up my last defence
As We Merge into One
In the Fire of
Your Eyes
Shining Vapour I Become
Hold me closer as I Rise
We Dissolve into
One
