

Alec Benjamin, Shadow Of Mine

Booked a trip to Texas, thought I'd start again
Switched all my addresses and ghosted all my friends
Thought I could escape what I could not transcend
Found myself back in the same old place again
Everywhere I go, my shadow, it follows behind
Doesn't matter where I travel, my shadow, it finds me
Something that I've come to realize after all this time
I can't escape my shadow, I can't escape my shadow
Maybe on the nexus, the common thread that binds
The problems in my head and the world that lives outside
I thought I could escape, but it's fate I've come to find
My devil is the devil that's inside
Everywhere I go, my shadow, it follows behind
Doesn't matter where I travel, my shadow, it finds me
Something that I've come to realize after all this time
I can't escape my shadow, I can't escape my shadow
It won't ever let me go
It goes everywhere I go
It won't ever let me go
This shadow, this shadow of mine (shadow of mine)
We grapple, we battle, but we
Are shackled for eternity
We grapple, we battle
We're shackled, we're shackled, we're shackled
Everywhere I go, my shadow, it follows behind
Doesn't matter where I travel, my shadow, it finds me
Something that I've come to realize after all this time
I can't escape my shadow, I can't escape my shadow
It won't ever let me go
It goes everywhere I go
It won't ever let me go
This shadow, this shadow of mine (shadow of mine)
