

Alessi, I Wish That I Was Making Love

Girl, I miss you and feel you wanting me
over the telephone
I'm still here alone and though it
seems a close to perfect day
Where everything just went my way
Might have the longest night I've ever known
I wish that I was making love to you tonight
I've never seen so many stars or a moon as bright
Babe, you're all that's missing to make it all just right
And I wish that I was making love to you tonight
In the darkness, I feel my empty bed
covered with loneliness
We pay for our success
in ways we never could have dreamed before
Babe, I need you more and more and
nothing ever makes me want you less.
I wish that I was making love to you tonight
I've never seen so many stars or a moon as bright
Babe, you're all that's missing to make it all just right
And I wish that I was making love to you tonight
Wish I was makin' love
And Babe you're all that's missing
to make it all just right
And I wish that I makin' love to you
